AUDITORS' REPORT

TO THE SHAREHOLDERS OF REDSTAR GOLD CORP. (An Exploration Stage Company)

We have audited the accompanying financial statements of Redstar Gold Corp, which comprise the consolidated balance sheets as at March 31, 2011 and 2010, and the consolidated statements of operations, shareholders' equity and cash flows for the years then ended, and a summary of significant accounting policies and other explanatory information.

Management's Responsibility for the Financial Statements

Management is responsible for the preparation and fair presentation of these financial statements in accordance with Canadian generally accepted accounting principles, and for such internal control as management determines is necessary to enable the preparation of financial statements that are free from material misstatement, whether due to fraud or error.

Auditor's Responsibility

Our responsibility is to express an opinion on these financial statements based on our audit. We conducted our audit in accordance with Canadian generally accepted auditing standards. Those standards require that we comply with ethical requirements and plan and perform the audit to obtain reasonable assurance about whether the financial statements are free from material misstatement.

An audit involves performing procedures to obtain audit evidence about the amounts and disclosures in the financial statements. The procedures selected depend on the auditor's judgment, including the assessment of the risks of material misstatement of the financial statements, whether due to fraud or error. In making those risk assessments, the auditor considers internal control relevant to the entity's preparation and fair presentation of the financial statements in order to design audit procedures that are appropriate in the circumstances, but not for the purpose of expressing an opinion on the effectiveness of the entity's internal control. An audit also includes evaluating the appropriateness of accounting policies used and the reasonableness of accounting estimates made by management, as well as evaluating the overall presentation of the financial statements.

We believe that the audit evidence we have obtained is sufficient and appropriate to provide a basis for our audit opinion.

In our opinion, the financial statements present fairly, in all material respects, the financial position of Redstar Gold Corp as at March 31, 2011 and 2010, and the results of its operations and its cash flows for the years then ended in accordance with Canadian generally accepted accounting principles.

REDSTAR GOLD CORP.
(An Exploration Stage Company)
Notes to Consolidated Financial Statements
Years Ended March 31, 2011 and 2010

1. NATURE OF OPERATIONS AND GOING CONCERN

Redstar Gold Corp. (the "Company") is an exploration stage company engaged principally in the acquisition, exploration and development of mineral property interests.

These consolidated financial statements have been prepared on the basis of Canadian generally accepted accounting principles ("GAAP") applicable to a going concern, which assumes that the Company will be able to continue in operation for the foreseeable future and will be able to realize its assets and discharge its liabilities and commitments in the normal course of business.

The Company has incurred significant operating losses over the past several fiscal years, is currently unable to self-finance operations, has a working capital deficit of \$87,395 (2010 - working capital of \$590,351), an accumulated deficit of \$10,718,223 (2010 - \$9,915,332), limited resources, no source of operating cash flow and no assurances that sufficient funding will be available to conduct further exploration and development of its mineral property interests.

The application of the going concern concept is dependent upon the Company's ability to receive continued financial support from its shareholders and creditors, raise additional capital and generate future profitable operations. Management is actively seeking to raise the necessary capital to meet its funding requirements and has undertaken available cost cutting measures. There can be no assurance that management's plan will be successful.

These consolidated financial statements do not include any adjustments relating to the recoverability of assets and classification of assets and liabilities that might be necessary should the Company be unable to continue as a going concern.

2. SIGNIFICANT ACCOUNTING POLICIES

These consolidated financial statements have been prepared in accordance with Canadian GAAP and reflect the following policies.

(a) Basis of presentation

The consolidated financial statements include the accounts of the Company and its wholly-owned integrated subsidiaries, Redstar Gold USA Inc. and Redstar Gold (Alaska) Inc. All intercompany balances and transactions have been eliminated.

(b) Mineral property interests

The Company capitalizes all costs related to investments in mineral property interests on a property-by-property basis. Such costs include mineral property acquisition costs and exploration and development expenditures, net of any recoveries. The amounts shown for acquisition costs and deferred exploration expenditures represent costs incurred to date and do not necessarily reflect present or future values. Costs are deferred until such time as the extent of mineralization has been determined and mineral property interests are either developed or the Company's mineral rights are allowed to lapse. Costs accumulated relating to projects that are abandoned is written-off in the period in which a decision to discontinue the project is made, or an impairment has occurred.

All deferred mineral property expenditures are reviewed, on a property-by-property basis, to consider whether there are any conditions that may indicate impairment. When the carrying value of a property exceeds its net recoverable amount that may be estimated by quantifiable evidence of an economic geological resource or reserve, joint venture expenditure commitments or the Company's assessment of its ability to sell the property for an amount exceeding the deferred costs, provision is made for the impairment in value.

2. SIGNIFICANT ACCOUNTING POLICIES (Continued)

(b) Mineral property interests (Continued)

From time to time, the Company may acquire or dispose of a mineral property interest pursuant to the terms of an option agreement. As the options are exercisable entirely at the discretion of the optionee, the amounts payable or receivable are not recorded until the payments are made or received. Proceeds received on the sale or option of the Company's property interest are recorded as a reduction of the mineral property cost. When proceeds received in respect of a property exceed its carrying cost, such excess is recognized in the statements of operations.

(c) Property and equipment

Property and equipment are recorded at cost and are amortized using the declining-balance method at an annual rate of 20% for office equipment, 30% for computer equipment and 30% for automobiles. Leasehold improvements are amortized on a straight-line basis over the term of the lease. Additions during the year are amortized at one-half the annual rates.

(d) Non-monetary transactions

Shares issued for consideration other than cash are valued at the fair value of assets received or services rendered, or the quoted market price at the date of issuance, whichever is the more reliable measure.

(e) Earnings (loss) per share

Earnings (loss) per share are calculated using the weighted average number of common shares outstanding during the period. The Company uses the treasury stock method for calculating diluted earnings per share. Under this method, the dilutive effect on earnings per share is calculated presuming the exercise of outstanding options, warrants and similar instruments. It assumes that the proceeds of such exercise would be used to repurchase common shares at the average market price during the period. However, the calculation of diluted loss per share excludes the effects of conversions or exercise of options and warrants if they would be anti-dilutive.

(f) Foreign currency translation

Amounts recorded in foreign currency are translated into Canadian dollars as follows: monetary items are translated at the exchange rate in effect at the balance sheet date; non-monetary items are translated at historical exchange rates; and revenues and expenses and exploration expenditures, at the exchange rate prevailing at the transaction date, except for amortization, which is translated at the historical rate. Gains and losses arising from this translation of foreign currency are included in operations.

2. SIGNIFICANT ACCOUNTING POLICIES (Continued)

(g) Use of estimates

The preparation of financial statements in conformity with GAAP requires management to make estimates and assumptions that affect the reported amounts of assets and liabilities and disclosure of contingent assets and liabilities at the date of the financial statements, and the reported amount of expenses during the reporting period. Significant areas requiring the use of estimates include the rates of amortization for property and equipment, fair value of financial instruments, recoverability of mineral property interests, balances of accrued liabilities, determination of asset retirement and environmental obligations, the assumptions used in the determination of the fair value of stock-based compensation and the determination of the valuation allowance for future income tax assets. While management believes the estimates used are reasonable, actual results could differ from those estimates and could impact future results of operations and cash flows.

(h) Asset retirement obligations ("ARO")

The Company recognizes an estimate of the liability associated with an ARO in the consolidated financial statements at the time the liability is incurred. The estimated fair value of the ARO is recorded as a long-term liability, with a corresponding increase in the carrying amount of the related asset. The liability amount is increased each reporting period due to the passage of time and the amount of accretion is charged to earnings in the period. The ARO can also increase or decrease due to changes in the estimates of timing of cash flows or changes in the original estimated undiscounted cost. Actual costs incurred upon settlement of the ARO are charged against the ARO to the extent of the liability recorded. At present, the Company has determined that it has no material AROs to record in the consolidated financial statements.

(i) Stock-based compensation

The Company accounts for stock-based compensation using a fair value based method with respect to all stock-based payments to directors, employees and non-employees. For directors and employees, the fair value of the options is measured at the date of grant. For non-employees, the fair value of the options is measured on the earlier of the date at which the counterparty performance is completed or the date the performance commitment is reached or the date at which the equity instruments are granted if they are fully vested and non-forfeitable. The fair value of the options is accrued and charged either to operations or mineral property interests, with the offset credit to contributed surplus. For directors and employees the fair value is recognized over the vesting period, and for non-employees the fair value is recognized over the related service period. If and when the stock options are ultimately exercised, the applicable amounts of contributed surplus are transferred to capital stock.

(An Exploration Stage Company)
Notes to Consolidated Financial Statements
Years Ended March 31, 2011 and 2010

2. SIGNIFICANT ACCOUNTING POLICIES (Continued)

(j) Income taxes

The Company follows the asset and liability method of accounting for income taxes. Under this method of tax allocation, future income tax assets and liabilities are determined based on differences between the consolidated financial statement carrying values and their respective income tax basis (temporary differences). Future income tax assets and liabilities are measured using the tax rates expected to be in effect when the temporary differences are likely to reverse. The effect on future income tax assets and liabilities of a change in tax rates is included in operations in the period in which the change is enacted or substantially enacted. The amount of future income tax assets recognized is limited to the amount of the benefit that is more likely than not to be realized.

(k) Financial instruments

All financial instruments are classified as one of the following: held-to-maturity, loans and receivables, held-for-trading, available-for-sale or other financial liabilities. Financial assets and liabilities classified as held-for-trading are measured at fair value with gains and losses recognized in net income. Financial assets classified as held-to-maturity, loans and receivables, and other financial liabilities are measured at amortized cost using the effective interest method. Financial instruments classified as available-for-sale are measured at fair value with unrealized gains and losses recognized in other comprehensive income (loss) and reported in shareholders' equity. Any financial instrument may be designated as held-for-trading upon initial recognition. When a decline in the fair value of an available-for-sale financial asset has been recognized in comprehensive income, and there is objective evidence that the impairment is other than temporary, the cumulative loss that had been previously recognized in accumulated other comprehensive income is removed from accumulated other comprehensive income and recognized in net income even though the financial asset has not been de-recognized.

Transaction costs that are directly attributable to the acquisition or issue of financial instruments that are classified as other than held-for-trading, which are expensed as incurred, are included in the initial carrying value of such instruments.

The fair value of all marketable securities is determined by quoted market prices.

The Company classifies its financial instruments measured at fair value at one of three levels according to the relative reliability of the inputs used to estimate the fair value:

- Level 1 – quoted prices (unadjusted) in active markets for identical assets or liabilities;
- Level 2 – inputs other than quoted prices included in Level 1 that are observable for the asset or liability, either directly (i.e., as prices) or indirectly (i.e., derived from prices); and
- Level 3 – inputs for the asset or liability that are not based on observable market data (unobservable inputs).

These disclosures are not required when the carrying amount is a reasonable approximation of the fair value.

2. SIGNIFICANT ACCOUNTING POLICIES (Continued)

(l) Future accounting changes

(i) International Financial Reporting Standards ("IFRS")

In February 2008, the Accounting Standards Board announced that January 1, 2011 is the changeover date for publicly-listed companies to use IFRS, replacing Canadian GAAP. The IFRS standards will be effective for the Company for interim and annual financial statements relating to the Company's fiscal year commencing April 1, 2011. The effective date will require the restatement for comparative purposes of amounts reported by the Company for interim periods and for the year ended March 31, 2011. The Company has begun the planning and scoping phase of the transition to IFRS and intends to transition to IFRS financial statements during fiscal 2012.

(ii) Business Combinations

In January 2009, the Canadian Institute of Chartered Accountants ("CICA") issued Section 1582, "Business Combinations", Section 1601, "Consolidated Financial Statements", and Section 1602, "Non-Controlling Interests". These sections replace the former Section 1581, "Business Combinations", and Section 1600, "Consolidated Financial Statements", and establish a new section for accounting for a non-controlling interest in a subsidiary.

Sections 1582 and 1602 will require net assets, non-controlling interests and goodwill acquired in a business combination to be recorded at fair value and non-controlling interests will be reported as a component of equity. In addition, the definition of a business is expanded and is described as an integrated set of activities and assets that are capable of being managed to provide a return to investors or economic benefits to owners. Acquisition costs are not part of the consideration and are to be expensed when incurred. Section 1601 establishes standards for the preparation of consolidated financial statements.

These new sections apply to interim and annual consolidated financial statements relating to fiscal years beginning on or after January 1, 2011. Earlier adoption of these sections is permitted as of the beginning of a fiscal year.

3. FINANCIAL INSTRUMENTS

The Company has classified its cash as held-for-trading; marketable securities as available-for-sale; deposit as held-to-maturity; and accounts payable and accrued liabilities and due to related parties as other financial liabilities.

(a) Fair value

The carrying values of cash, marketable securities, and accounts payable and accrued liabilities approximate their fair values due to the short-term maturity of these financial instruments. The carrying value of the deposit approximates its fair value. The fair values of amounts due to related parties have not been disclosed as their fair values cannot be reliably measured since there are no quoted market prices for such instruments.

REDSTAR GOLD CORP.
(An Exploration Stage Company)
Notes to Consolidated Financial Statements
Years Ended March 31, 2011 and 2010

3. FINANCIAL INSTRUMENTS (Continued)

(a) Fair value (Continued)

The Company's financial instruments measured at fair value by level within the fair value hierarchy as at March 31, 2011 are as follows:

	Level 1	Level 2	Level 3	Total
Financial Assets				
Available-for-sale marketable securities	\$141,000	\$ 0	\$ 0	\$141,000

(b) Credit risk

The Company is exposed to credit risk with respect to its cash. The credit risk associated with cash is minimal as cash has been placed with major financial institutions.

Concentration of credit risk exists with respect to the Company's cash as all amounts are held at a single major Canadian financial institution and a single major US financial institution. The Company's concentration of credit risk and maximum exposure thereto is as follows:

	2011	2010
Cash	\$ 77,946	\$ 97,562

(c) Liquidity risk

Liquidity risk is the risk that the Company will encounter difficulty in satisfying financial obligations as they become due. The Company manages its liquidity risk by forecasting cash flows from operations and anticipated investing and financing activities. At March 31, 2011, the cash balance of \$77,946 (2010 - \$97,562) is insufficient to meet the business requirements for the coming year. Therefore, the Company will be required to sell its marketable securities, raise additional capital or sell one or more mineral property interest in order to fund its operations in 2012. At March 31, 2011, the Company had accounts receivable of \$61,882 (2010 - \$3,483) of which \$57,272 was received in the first quarter of fiscal 2012, and accounts payable and accrued liabilities of \$17,751 (2010 - \$55,069), which are due in the first quarter of fiscal 2012, and amounts due to related parties of \$392,629 (2010 - \$330,925), which are due on demand.

(d) Market risk

Market risk is the risk that the fair value or future cash flows of a financial instrument will fluctuate because of changes in market prices. Market risk comprises three types of risk: interest rate, foreign currency and other price risk.

(i) Interest rate risk

The Company is not exposed to significant interest rate risk due to the short-term maturity of its monetary assets and liabilities.

(ii) Foreign currency risk

The Company is not exposed to significant foreign currency risk given the majority of its financial assets and liabilities are denominated in Canadian dollars.

(An Exploration Stage Company)
Notes to Consolidated Financial Statements
Years Ended March 31, 2011 and 2010

3. FINANCIAL INSTRUMENTS (Continued)

(d) Market risk (Continued)

(iii) Other price risk

Other price risk is the risk that the fair or future cash flows of a financial instrument will fluctuate because of changes in market prices, other than those arising from interest rate risk or foreign currency risk. The Company is exposed to other price risk on its marketable securities to the extent of fluctuations in the current market prices of those securities.

As at March 31, 2011, a fluctuation in the fair value of marketable securities on the volatility of the underlying shares over the fiscal year ended has impacted the Company's other comprehensive income by approximately \$137,201.

4. CAPITAL MANAGEMENT

The Company defines capital as all components of shareholders' equity. The board of directors does not establish quantitative return on capital criteria for management due to the nature of the Company's business. The Company has in the past invested its capital in liquid investments to obtain adequate returns. The investment decision is based on cash management to ensure working capital is available to meet the Company's short-term obligations while maximizing liquidity and returns of unused capital. The Company does not pay dividends and is not subject to any externally imposed capital requirements.

The Company raises capital through the sale of its common shares to fund its corporate and exploration costs. Although the Company has been successful at raising funds in the past through issuance of common shares, there is no assurance it will continue to do so in the foreseeable future.

5. MARKETABLE SECURITIES

At March 31, 2011, the Company held marketable securities as follows:

	Number of Shares	Cost	Accumulated Unrealized Gains (Losses)	Fair Value
Central Resources Corp.	100,000	30,000	(16,000)	14,000

6. MINERAL PROPERTY INTERESTS (Continued)

(a) Newman Todd Property, Red Lake District, Ontario

In 2007, the Company acquired a 100% interest in the Newman Todd area properties (comprised of several properties) by issuing 700,000 common shares to the vendor.

The property is subject to a commitment to issue additional common shares as follows:

- (i) Common shares with a value of \$1,000,000 if a mine is placed into production; and
- (ii) Common shares with a value of \$1,000,000 if production from the properties exceeds 250,000 ounces of gold; and
- (iii) Additional common shares with a value of \$500,000 if production from the Newman Todd and Advance Red Lake properties exceeds 250,000 ounces of gold.

The mineral claims are subject to a 1% net smelter return ("NSR") royalty provided that the total NSR royalties payable on any claims within the property do not exceed 2.75%.

On November 2, 2009, the Company entered into an option agreement with Central Resources Corp. ("Central") whereby Central could have earned up to a 60% undivided interest in the Company's 100% owned Newman Todd Property in Red Lake, Ontario.

Under the terms of the agreement Central can earn a 50% interest in the project over a four-year period by funding \$4,500,000 in exploration and development work and issuing 500,000 shares of Central to the Company as follows:

Incurring exploration expenditures of not less than \$4,500,000 as follows:

- \$1,000,000 by November 2, 2010 (incurred);
- \$500,000 by December 31, 2010;
- \$1,000,000 by December 31, 2011;
- \$1,000,000 by December 31, 2012; and
- \$1,000,000 by December 31, 2013.

Issuing 500,000 Central shares to the Company as follows:

- 100,000 shares by November 2, 2009 (received);
- 100,000 shares by November 2, 2010;
- 100,000 shares by November 2, 2011;
- 100,000 shares by November 2, 2012; and
- 100,000 shares by November 2, 2013.

Central can earn an additional 10% interest in the project by funding \$2,000,000 in exploration and development work by December 31, 2014 and issuing 750,000 shares of Central to the Company by November 2, 2014.

On November 15, 2010 Central formally advised the Company that it would not be continuing with the option on the Newman Todd property having satisfied and fully discharged all of its commitments for the first year of the agreement.

6. MINERAL PROPERTY INTERESTS (Continued)

(a) Newman Todd Property, Red Lake District, Ontario

On November 19, 2010, the Company entered into an option agreement with Confederation Minerals Ltd. ("Confederation") whereby Confederation can earn up to a 70% undivided interest in the Company's 100% owned Newman Todd Property in Red Lake, Ontario.

Under the terms of the agreement Confederation can earn a 50% interest in the project over a three-year period by funding \$5,000,000 in exploration and development work and issuing 500,000 shares of Confederation and making payments totaling \$250,000 to the Company as follows:

Incurring exploration expenditures of not less than \$5,000,000 as follows:

- \$2,000,000 by November 19, 2011;
- \$1,500,000 by November 19, 2012;
- \$1,500,000 by November 19, 2013.

Cash payments of \$250,000 and issuing 500,000 shares of Confederation to the Company as follows:

- \$50,000 and 100,000 shares on signing (received);
- \$50,000 and 100,000 shares by November 19, 2011;
- \$75,000 and 150,000 shares by November 19, 2012;
- \$75,000 and 150,000 shares by November 19, 2013.

After the exercise of the first option, Confederation can earn an additional 20% interest in the project by providing a Preliminary Assessment of the property, at Confederation's cost, and issuing 500,000 shares of Confederation to the Company. In addition, to maintain the second option in good standing, Confederation will make minimum annual expenditures of \$250,000 commencing on the third anniversary and until the earlier of (a) the full exercise of the second option, and (b) the expiry of the second option.

6. MINERAL PROPERTY INTERESTS (Continued)

(b) Nevada Properties

During the year ended March 31, 2005, the Company entered into a letter of agreement (as amended) with AngloGold Ashanti North America Inc. ("AngloGold") for the exclusive right to acquire a copy of AngloGold's Great Basin database. In order to obtain this right, the Company was required to incur US \$3,000,000 on exploration expenses on Nevada Properties (incurred) and issue to AngloGold 175,000 common shares (issued). Once the Company had spent US \$750,000 on exploration expenses on a property, AngloGold had a one-time right to earn a 60% interest in that property by incurring 200% of the expenditures incurred by the Company within three years after electing to back in.

The agreement was for a term of one-year (expiring March 9, 2006) and, with the consent of both parties and the Company issuing 175,000 common shares to AngloGold, could be renewed for a further one-year term. The Company renewed the agreement for one-year terms as follows:

- 175,000 common shares issued on August 11, 2006 to extend to March 9, 2007;
- 175,000 common shares issued on February 7, 2007 to extend to March 9, 2008;
- and
- 175,000 common shares issued on March 11, 2008 to extend to March 9, 2009.

In May 2008, the Company completed the acquisition of AngloGold's Great Basin database. As a result, the remaining back-in rights held by AngloGold on Nevada Properties were removed unless otherwise noted below.

(i) Dry Gulch Property, Elko County, Nevada

During the year ended March 31, 2010, the Company wrote-off this property in the amount of \$112,918.

During the year ended March 31, 2010, the Company abandoned this property.

(ii) North Bullfrog Property, Nye County, Nevada

During the year ended March 31, 2007, the Company entered into five mining leases to purchase a 100% interest in certain mineral claims. The Company will grant a production royalty of 2% to 4% of NSR to each vendor. To maintain the leases, the Company must make minimum advance royalty payments of US \$32,300 (paid for 2010, 2009 and 2008) per annum on each of the first three anniversaries and US \$37,700 per annum thereafter. The Company has the right at any time while the agreements are in effect to purchase the production royalty for US \$850,000 to US \$1,000,000 per 1% and may purchase the entire royalty.

During the year ended March 31, 2010, the company sold this property.

The Company has also acquired the following property interests in Nevada:

(iii) Eagle Basin Property, Lander County, Nevada

The Eagle Basin Property consists of 37 (2010 - 45) claims acquired through staking near Lander County, Nevada. AngloGold holds a 2% NSR royalty.

(iv) Painted Hills Property, Humboldt County, Nevada

The Painted Hills Property consists of 79 (2010 - 79) claims acquired through staking near Humboldt County, Nevada.

(c) Letter of Intent, North Bullfrog and Painted Hills Properties (Continued)

- (vi) On July 30, 2009 the Company signed an agreement with ITH for the sale of the North Bullfrog property in Nevada, including assumption of the lease on the Connection property (note 6(c)(v)). Under the terms of the sale agreement, ITH will pay the Company \$250,000 cash (paid) and issue 200,000 (received with a fair value of \$864,000) shares to earn 100% of the Company's interest in the property. The sale of the property was substantively complete on September 30, 2009; accordingly, the consideration received by the Company was recorded as a gain on sale of mineral property interest in the amount of \$1,114,000. During the year ended March 31, 2010, this sale was completed.

(d) Letter of Intent, Dry Gulch Property

In March 2008, the Company entered into a binding LOI with Gold Fields Netherlands Services BV ("Gold Fields") to enter into a joint venture in the Dry Gulch Property in Nevada. The terms of the LOI are as follows:

- (i) Gold Fields will pay the Company US \$20,000 on signing of the agreement (received).
- (ii) Gold Fields will incur a minimum work commitment of US \$400,000 by December 21, 2008 (incurred).
- (iii) Once the above has been paid and incurred, Gold Fields will have the option to enter into a joint venture agreement if certain conditions are met. The terms of the joint venture agreement are:
- (a) Gold Fields will pay the Company a further US \$170,000 as follows:
- (i) On or before December 21, 2008 - US \$30,000;
 - (ii) On or before December 21, 2009 - US \$45,000;
 - (iii) On or before December 21, 2010 - US \$70,000; and
 - (iv) On or before December 31, 2011 - US \$25,000.
- (b) Gold Fields will incur a further work commitment of US \$1,600,000 by December 21, 2011.
- (iv) After completion of the above, Gold Fields will have the option to earn a 60% interest in the joint venture for a nominal price and continue the joint venture for a second phase, comprised of Gold Fields spending an additional US \$5,000,000 and providing Gold Fields an option to earn an additional 10% interest in the joint venture, for a total of 70%. At the end of the second phase, the Company can elect to participate in the project going forward by contributing in proportion to its 30% interest.

On December 10, 2008, Gold Fields notified the Company that it would not exercise its option to enter into a joint venture agreement and it withdrew from the LOI and the Dry Gulch Property project having satisfied and fully discharged all of its commitments to December 21, 2008.

Catalina can elect within 60 days after completion of the first option in the Project, to earn an additional 10% interest (for a total of 70%) by funding an additional \$2,000,000 expenditures within 12 months.

(i) Title to mineral property interests

Although the Company has taken steps to verify the title to mineral properties in which it has an interest, in accordance with industry standards for the current stage of exploration of such properties, these procedures do not guarantee the Company's title. Property title may be subject to unregistered prior agreements or transfers and title may be affected by an undetected defect.

(j) Realization of assets

The investment in and expenditures on mineral property interests comprise a significant portion of the Company's assets. Realization of the Company's investment in these assets is dependent upon the establishment of legal ownership, the attainment of successful production from the properties or from the proceeds of their disposal.

Mineral exploration and development is highly speculative and involves inherent risks. While the rewards if an ore body is discovered can be substantial, few properties that are explored are ultimately developed into producing mines. There can be no assurance that current exploration programs will result in the discovery of economically viable quantities of ore.

(k) Environmental

Environmental legislation is becoming increasingly stringent and costs and expenses of regulatory compliance are increasing. The impact of new and future environmental legislation on the Company's operations may cause additional expenses and restrictions.

If the restrictions adversely affect the scope of exploration and development on the mineral properties, the potential for production on the property may be diminished or negated.

6. MINERAL PROPERTY INTERESTS (Continued)

The Company is subject to the laws and regulations relating to environmental matters in all jurisdictions in which it operates, including provisions relating to property reclamation, discharge of hazardous material and other matters. The Company may also be held liable should environmental problems be discovered that were caused by former owners and operators of its properties and properties in which it has previously had an interest. The Company conducts its mineral exploration activities in compliance with applicable environmental protection legislation. The Company is not aware of any existing environmental problems related to any of its current or former properties that may result in material liability to the Company.

As at March 31, 2011, the Company owed \$392,629 (2010 - \$328,778) to that contractor.

Included in the amount owing to that contractor is a charge to the Company for GST in the amount of \$31,142 for the period February 1, 2007 to April 30, 2010. This amount will be recovered by the Company in the first quarter of fiscal 2012.

- (b) As at March 31, 2011, the Company owed \$nil (2010 - \$2,146) to a company with one director in common in 2009. This amount was forgiven during fiscal year 2011.
- (c) During the year ended March 31, 2010, the Company entered into a debt settlement agreement for \$400,000 of the outstanding balance payable to an exploration service contractor in which a director is a principal (note 9(a)). The Company settled the balance through the issuance of 2,000,000 common shares. At the date of settlement, the shares were trading at \$0.21 each for a total exchange amount of \$420,000. Accordingly, the Company recorded a loss of \$20,000 on the debt settlement.

The amounts due to related parties are without interest and are due on demand.

These transactions were made in the normal course of operations and are recorded at the exchange amount, being the amount agreed upon by the related parties.

14. SUBSEQUENT EVENTS

- (a) On May 3, 2011, the Company announced the joint acquisition with Confederation Minerals Ltd. ("Confederation") of a 50% interest in additional lands adjacent to the Company's Newman Todd gold exploration project near Red Lake, Ontario. Confederation holds an option to acquire up to a 70% interest in the Newman Todd project. The additional 18 mineral claims (the "Todd Property") are immediately adjacent to the Newman Todd project.

Of the 50% interest acquired by the parties from the vendor, Mr. Ronald Gangloff, Confederation acquired an undivided 35% interest in the Todd Property (being 70% of the vendor's interest) for the sum of \$50,000 and 125,000 shares of Confederation and the Company acquired an undivided 15% interest in the Todd Property (being 30% of the vendor's interest) for the sum of \$70,000. The remaining 50% interest in the claims is held by Rubicon Minerals Corporation.

14. SUBSEQUENT EVENTS (Continued)

- (b) On May 24, 2011, the Company announced the acquisition by its wholly-owned subsidiary Redstar Gold (Alaska) Inc. of a high-grade gold project in Alaska (the "Shumagin Project") from NGAS Production Co. ("NGAS") a subsidiary of Magnum Hunter Resources Corp. Under the terms of the agreement the Company can earn a 100% interest in the Shumagin Project by making cash payments of US \$2.35 million (NGAS has the option of receiving the final US \$1.5 million in cash or the Company's stock) and issuing US \$500,000 in the Company's stock over two years.

In addition, the Company will assume underlying advance royalty payments of US \$2,000 per month to a maximum of US \$450,000.

- (c) On June 13, 2011, the Company announced the acquisition of a large land package in Alaska (the "Unga-Popov" Property) acquired from Full Metal Minerals Ltd. ("Full Metal"). Under the terms of the agreement the Company can acquire 60% of Full Metal's interest in the Unga-Popov Property by making cash payments of US \$300,000 and issuing 1,000,000 common shares of the Company to Full Metal over three years and incurring exploration expenditures of US \$5,000,000 over four years.

In addition, the Company has the option of earning an additional 15% interest by producing a Bankable Feasibility Study and issuing an additional 1,000,000 common shares of the Company to Full Metal.

The Unga-Popov Property is subject to three underlying agreements.

- (d) On June 16, 2011, the Company announced the signing of a lease agreement with Newmont USA Limited, a subsidiary of Newmont Mining Corporation ("Newmont"), whereby Newmont will lease from Redstar the Baker Project in Nevada. Under terms of the agreement, Newmont will pay Redstar \$102,500 over the first five years of the lease and is committed to spending \$225,000 during the first two years; Redstar will retain a 2.5% net smelter royalty.
- (e) On June 29, 2011, the Company announced a non-brokered private placement of up to 8,000,000 units at a price of \$0.35 per unit for gross proceeds of \$2,800,000.
